Resolved. That the Delegates have power to fill vacan cles and add to their numbers. The following gentlemen were appointed a Committee on Resolutions: Washington Smith, John P. Cumming, Jo-

seph W. Strong, Wm. Stoutenborough, George Whitfield.

The Committee, after retiring, reported the following

Resolutions, which were unanimously adopted: Resolved, That the Democratic Whig Members of Congress, in their resistance of Executive Power and their no-ble and manly vindication of the rights of the People against the unhely condition of Northern Horizontal Tariff Loco-Focos and Southern Free Trade Nullifiers, deserve the warmest thanks and the firm and unyielding support of

every true hearted American.

Resolved, That we cordially respond to and bail with enthusiasm the nomination of LUTHER BRADISH for Governor and GABRIEL FURMAN for Lieutenant-Governor. and pledge ourselves to turn out to their support in November next, and swell the wave of popular triumph which is destined to sweep from the Atlantic to the shores of the

great Lakes.

Resolved, That we are opposed to any suspension of our resolved, That we are opposed to any suspension of our resolved regions. Resolved, That we are opposed to any suspension of our Public Works, as being founded upon a policy rainous to the financial prosperity of the State and destructive of the expansion and advancement of our Agriculture and Commerce; that we sympathise with the thousands of Laborers who by this suspension have been abandoned, with their families, to poverty for want of employment, and trust that the time will soon come when under a new administration those work will be resumed to the confect of these will those works will be resumed to the comfort of those who embhatically earn their bread by the swent of their brow.

Resolved. That the patriotic and lofty stand taken by the Whigs in favor of a Protective Tariff shows clearly who are the true friends of the People; and that every artizan method to the produced mainly by having a large amount of funds locked up. We hope soon to see it in operation again.

The following is given in the Vicksburg Sentinel as the measurement of the Mississippi river opposite the city of Vicksburg. Its width is 37,493 chains or nearly 9-20 of one mile; greatest depth 84 feet or 14 fathoms; swiftest current at the rate of 4,85 miles per hour; average current at the rate of 3,17 miles per hour. Quantity of water passing a given point in one heur, is 16,-

gallon, 73,597,278 tons.

THE MEASURES OF HENRY CLAY are declared by the The Measures of Henry Clay are declared by the great body of the American people to be the only onesthat can restore prosperity to our bleeding country. If this be so for Heaven's sake let us have them. We by no means take it upon ourselves to decide-for this is not our province: the people will settle that question as they have already settled another: we mean that of the great utility of Peters' Lozenges and Pilis. We feel perfectly competent from long experience and from a knowledge of the opinions of those who have tried them, to say that for all asthmas, coughs, fevers, agones, hearthurns, nausea, headaches, diarrhoza, lumvers, agues, heartburns, nausea, headaches, diarrhoga, lumbago, &c. &c the medicated properties of Dr. Peters are infallible. This is no chance guess-work: it is the declara-tion of those who have tried. The warehouses are at 459 Broadway and 125 Fulton st. Call and try for yourselves.

Scrofula.—Other diseases have slain their thousands, but Scrofula has slain its tens of thousands. This very alacming affection appears under a great variety of forms, from the slightest deviation from health, to the most fatal or local and general disease. One of its most common forms is tubercular Pathisis Pulmonaliser consumption of the lungs; diseases of the hip and knee joint and white swelling—also the glands of the hip and knee joint and white swelling—also the glands of the neck and other parts of the body. Experience has shown that Sands' Sorsuparilla is a cure for this most inveterate complaint, and in numerous instances it has brought returning health and life where the vital spark had almost fied.—From its preparation and peculiar combination with other vegetable substances it operates by removing in the first place unhealthy action from the diseased organs, substituting healthy action in its place and giving tone to the general energies of the system. For particulars of its curative powers see differ nt advertisements in the daily papers.

nication alinded to, by the way, is ascribed to the State Bank of Albany, which holds \$300,000 of the suspended bank notes, and to a large necurrent money house in Wall street, (the diamond pin victim,) also largely interested in broken notes. In answer to the Comptroller, Mr. Blatchford, Receiver of the Commercial Bank, says:

There is no probability that any portion of the amount advanced by the Comptroller to redeem the circulation of the Commercial Bank will ever be repaid. The total amount of acknowledged liabilities of the Bank, exclusive of capital stock and circulating notes, was \$175,728. Assets \$114,320. If no more than the above is realized, there will be a deficiency of \$61,408. I have also on hand securities, which are of but little value, I fear, to the amount of \$137. 435,765,834 gallons, or in weight at 10 lb. to the \$114.320. 250. From this statement, which is generally (though not meant to be entirely) accurate, you will be able to form some opinion whether there is any probability of the Safety Fund being reimbursed any thing."

In relation to the payments of the Banks to the Safety Fund, the Comptroller says:

"Twenty-four Banks have commuted; sixteen of them at 2 and the residue at 3 per cent. The total sum paid by these Banks is \$183,673. This sum has been paid in the notes of insolvent Banks, as follows:

retail from 31c to 5c. Markets-Carefully reported for The Tribune. ASHES .- There a considerable number of bills on the market to-day, say 500 to 400 bbls., mostly Pots. The receipts by the river are not very large. The transactions in Pots are about 100 bbls. at 5 \$71, at which they are firm, with a moderately good demand. About 50 bbls. Pearls have been sold at 562½, and a few bbls. at 575. Large holders are willing to accept the larger price, but the orders are at 5 624 and under. There is not much anxiety among shippers to buy

at cu rent rates.

COTTON.-There is yet no activity in this staple, the sales to-day only reaching, as far as reported, 300 bales .-Holders yet submit to no decline, but they appear rather more disposed to accept effects than for some days past. From the annual report of the Cotton Crop of the United States, prepared for the Shipping and Commercial List, it appears that the entire growth of the season, ending on the 31st ult., is 1,683,574 bags, an increase of 48,500 bales, as com-

The Shipping List, we think, is in error somewhere in its calculations. It puts down the excess of exports over last year at 151,972 bales. We do not exactly see where it gets this excess to export. The increase in the growth is 48,600 bales, the decrease in consumption is 29,400 bales the drerease of stock on hand is 40,600, making a total of 118,600. bales. We may have overlooked some point, but we think there is here a discrepancy. FLOUR.-The receipts to-day are rather large, which

with the unpleasant weather, has had a tendency to make the market easier for the bayer. Previous to the arrival of the tow, the Flour affoat had been nearly all sold. The sales this merning of Genesee have been small, and at \$4 621 for good brands. At this price the receivers are generally firm, but buyers are refuse to give over 4561. We notice sales of about 600 bbls, flat Ohio, better than common brands, at his beautiful, gracetul, and tasteful low bell-crowned flat, being the only really fashionable article of the kind extant, though be cannot expect but imitators will spring up, and claim the benefit of his own original conceptions.

To say that these Hats surpass any thing of the kind in point of style, finish, and graceful appearance, is to claim no more than is warranted by an experience of twenty years in the business, and he invites gentlemen who study grace and tashion, to call and examine for themselves.

Also, Moleskin Hats, at \$3.00; Beavers at \$4.50; Cassimere and Nutria Hats, at \$3.50 each; these are his standard prices, and he need only remark that by confiding himself to one quality and price for each description of hats, he is enabled to furnish a superior article at prices far below those at which Hats of the same description are now vending by other manufacturers.

A steady and permanent increase of patronage for the last 7 years is a sufficient indication of public judgement, and constitutes the best test of their merits.

WHALE OIL .- A parcel of 2,700 bbls, sold yesterday at 33jc, which is a further advance of jc. The market is now, it needs only to be stated that the foundation or body is we believe, again bare of Whale.

GROCERIES .- There is no particular change to note .-The dealers are only buying moderate parcels. We notice sales te-day of 400 bags Rio Coffee at 81 a 8c, and 100 boxes Brown Havana Sugar at 61, part for refining. Small sales Seignette Brandy at \$1 55.

PROVISIONS .- The market for Pork is firm. A sale of 300 bbls. Ohio was made at 5 25, and 7 871 for Prime and Mess. The demand is fair, and the stock is getting reduced The sales of Foreign Exchanges were to considerable somewhat. Beef is without change, and the sales are limextent, and some Sterling sold as high as 8 per cent. We ited to small lots. For Refuse Provisions the inquiry continues to be good, and we hear of a sale of 700 bbls. sour Prime at 3 621, showing an advance of 121c on the last sales. In Butter and Cheese there is a fair business doing. Cheese

ALBANY, August 31, 1342.

To the Sheriff of the City and County of New-York:

Sin,—Notice is hereby given that at the next General Election, to be held an the Thesday succeeding the first Monday of November next, the following officers are to be elected, to wit: Plate. Price 25 cents.

HARPERS & BROTHERS respectfully announce their intention to publish an octavo edition of the standard novels, such as these of Mr. James, Sir E. L. Bulwer, &c., at the very low price of twenty-five cents. Each nevel will be comprised in a single volume, yet the type (brevier) will be large enough to ensure easy legibility. The pages will be in double columns.

A volume will be published about once a fortnight, or oftener if occusion shall require. In this respect the publishers will be governed by the supply; whatever good works appear will be promptly issued in the octavo edition. The works introduced in this edition will be given complete, without omission or abridgement, and in the neatest and handsomest manner. The paper will be of excellent quality; the sheets will be dried and pressed, so that the volumes will be in order for binding; and as the price is elected, to wit:

A Governor and Lieutenant Governor of this State.

A Senator of the First Senatorial District, to supply the vacancy which will accrue by the expiration of the term of service of Gabriel Furman, on the last day of December next.

Also, the following City and County Officers, to wit:
Thirteen Members of Assembly, and a Register, in the
place of J. Sherman Brownell, whose term of service will
expire on the last day of December next.

Vaccar respectfully.

The above is a true copy of a notification received from volumes will be in order for binding; and as the price is lower than that of any edition or form in which such works have ever been published here or elsewhere, the publishers confidently anticipate a liberal encouragement from the Sheriff of the City and County of New-York.

am compelled to assert again that they are one and the same
article, which Mr. F. nost conclusively shows himself, where
in his notice, after an examination of my article, he says it
cannot the the same: unless indeed our Vermifuge has been
transferred into bottles marked Kolmstock?!! thereby admitting he could not tell them apart! for I most solemnly
assert that there was never a drop of theirs poured into our
bottles. As to its qualities and effects, I now assert that mine
cannot be excelled as a sure and safe worm remedy, it being
impossible to do harm and sure to relieve, and if Mr. Fahnetock's has not the same active ingredients then it must be worthless. But as the agents for my Vermifuge, Messis. COM

This newly invented Stove is upon the Air-Tight Principle and stands unrivalled for its beauty, safety and temperature of heat produced. It is simple in construction, and may be used with or without an oven, which is admirably adapted to all the purposes of baking. For the sick room this stove is superior to all other wood stoves, and is recommended to the public with great confidence by the proprietor in this City. A few testimonials are given below by those who have used them during the last winter. The public are invited to call and examine this stove at my store, where they are manufactured and for sale.

BECOMMENDATIONS.

From J. H. Linsley, DD. President starietta College, Ohio.

MARIETTA COLLEGE, Ohio, January 27, 1242.

Mr. Zepheniah Bosworth—Sir—I have in use one of your improved air-tight Stoves. There are, I believe, several varieties of this kind of stove in use in the country. It is not necessary that I should compare yours with others. I with only say that I prefer yours to any other which I have seen in operation, and indeed to any close stove which I have cror seen. The following are among its excellencies:

1. It throws out a great amount of heat. 2. It consumes a very small quantity of fuel in proportion to the space warmed. 3. The control of the door and the damper over the draught is so entire, that you may graduate the temperature of the room, as you please. If the stove be properly managed, the air is never scorched, and no water is required on the stove. 4. It is asmirably adapted to the sick room where a steady fire and even temperature is required. 5. The process of consuming the fuel used, is so slow that your room is kept moderately warm by a good sized stick of solid dry wood, from 3 to 10 hours. Hence its superio ity as a sick room stove, or for offices where you have frequent occasion to leave your fire unrenewed, for a considerable time. 6. The safety of the stove is perfect. I ought, perhaps to add, that the large sizes, though more costiy at first, are the most economical, and exhibit the peculiar excellenlencies of the stove to the best advantage, because with them your room is warmed while the draught is kept at the lowest noint.

Yours, &c. J. H. LINSLEY. MPORTANT NEWS from Providence.

—Jayne's Expectorant Triumphant!—A Card.—I
give the public the following facts, that all interested may
be benefited by the operation.

I am sixty-four years of age; have been for four years
seriously sfflicted with the asthma, have tried several physicians, and taken many "certain" cures of great expense and
without any essential advantage. For two years I was not
able to pass the whole of a night in my bed. On consulting
Dr. Wadsworth, of thiscity, about my case, he advised me
to take Dr. Jayne's Expectorant. This medicine operated as he told me it would do. I have taken five bottleso
it, and consider myself in a manner cured by it. I can now ted as he told me it would do. I have taken her bottles of it, and consider myself in a manner cured by it. I can now lay confortably all night; am free from the tightness of the lugs and weakness of the stomach, which so dreadfully distressed and reduced me. In short, life had become fairly burdensome to me—now I enjoy it, though I am not entrely free from other infirmities astendant upon old age.
